

REVERE USCG/SOLAS LIFERAFT

Revere USCG/SOLAS Life Rafts are renowned for the uncompromising quality and design sophistication. In addition to meeting the requirements of the International Convention of the Safety of Life at Sea (SOLAS) 1983, as amended, the USCG/SOLAS Life Raft holds United States Coast Guard Approval. Meeting the needs of all types of commercial craft, the Revere USCG/SOLAS Life Raft range consists of two models: standard throw over and davit-launched. These rafts come in a variety of sizes accommodating 4,6,8,10,12,16,20 and 25 persons and davit-launched in 12, 16, 20 and 25. Comes with a standard 5-year warranty if serviced yearly.

Note: All rafts are USCG approved, however, the 4 person low profile raft is NOT SOLAS compliant. It contains an A or B Pack in lieu of a SOLAS pack.

Every Raft comes packed in a weatherproof fiberglass container to keep the raft protected for longer service life. The container is secured to a steel deck-mounted stowage cradle with a hydrostatic release, allowing for both manual and automatic launching. A space saving "low-profile" fiberglass container and aluminum, cradle assembly is also available for 4,6 and 8 person. Features include canopy and boarding ramp for all models.

Raft Features:

- Large volume ballast bags for maximum stability
- Exterior LED locator light for maximum visibility
- SOLAS grade reflective tape
- Inflatable boarding ramp
- Double-layered, high visibility canopy
- Insulated floor for thermal protection
- Interior and exterior safety lines
- Righting line on floor bottom
