Revere introduces its new Offshore Commander 4.0 life raft. This life raft is the ideal solution where space and weight savings are an important requirement.

Designed, tested and manufactured to ISO 9650, it is designed to protect passengers in offshore conditions, where strong winds and significant waves can be met. The self-deploying canopy and large entry opening allows for easy access on board.

Offered in 4, 6 and 8 person capacities, it has a less than 24hr survival pack inside the life raft.
