NEVER COMPROMISING

SAVING LIVES SINCE 1936

Revere Survival Products™ was founded in 1936. Since its inception, our company has manufactured and distributed premium survival equipment to meet all recreational, commercial and aviation needs. Our full line of products includes life rafts, inflatable life jackets, beacons, pyrotechnics, and man-overboard rescue systems.

Founded as the Sculler Corporation based in New York City, the first product developed was a line-throwing cannon. During World War II, the Sculler Corporation distributed balsa wood life floats and personal floatation devices to aid in the war efforts.

COMFORTMAX INFLATABLE LIFE JACKET

Revere's ComfortMax Inflatable Life Jacket offers a manual or auto inflation system, combining comfort with the convenience of instant CO2 inflation technology. It has dual waist adjustment straps for a perfect fit, and a D-ring for connecting a kill-switch lanyard for safety. The heavy-duty 420 denier nylon fabric covering has a clear status window with a view of the inflation system status indicator.

FEATURES

- USCG approved for persons at least 16 years of age weighing 80 lbs. and above with a chest size between 30" and 52"
- 35 lbs. of buoyancy (156N)
- Dual waist belt stainless-steel adjusters
- Exterior inflation system access flap
- Comfortable 2" waist strap and dual back straps
- Heavy-duty 420 denier nylon outer cover
- Includes signal whistle
- SOLAS-grade retro-reflective tape on inflatable bladder, accessory strap on bladder for attachment of optional Aquaspec light
- Neck area has no velcro or edge binding (which would cause chafing or abrasion) for all-day comfort

COMFORTMAX COMMERCIAL INFLATABLE LIFE JACKET

Revere Survival's Commercial Inflatable Life Jacket offers an auto inflation system. Combining comfort with the convenience of instant CO2 technology.

It has dual waist adjustment straps for a perfect fit, and a D-ring for connecting a kill-switch lanyard for safety. The heavy-duty 420 Denier nylon fabric covering has a clear status window with a view of the inflation system status indicator.

FEATURES

- USCG approved for persons at least 16 years of age, weighing more than 80 lbs, with a chest size between 30" and 52"
- Outer cover is made of heavy duty 420 denier nylon available in international orange
- Comfortable 2" waist strap and dual back straps
- Access flap allows for clear, direct access to the CO2 cylinder for rearming. The CO2 cylinder can be replaced without opening and unfolding the entire life jacket
- SOLAS-grade retro-reflective tape
- Neck Area has no velcro or edge binding (which would cause chafing or abrasion) for all-day comfort
- Designed specifically for commercial use, using the same technology as our award winning ComfortMax
- Dual waist belt with stainless steel adjusters provides easy adjustment
- Includes signal whistle
- Accessory strap on bladder for attachment of Aquaspec light (optional)
- 35lbs of buoyancy (156N)

CHALLENGER INTERLOCK 275 SOLAS LIFE JACKET

The Interlock 275 is specially designed for use as a combined working/abandonment life jacket.

It is designed to be worn when the user is wearing heavy duty clothing or with an abandonment suit. This incredibly lightweight and comfortable to wear life jacket design gives excellent neck and head support which is particularly vital for an unconscious wearer.

FEATURES

- 330N buoyancy
- SOLAS/MED/Shipswheel approved
- Twin chamber bladder system
- Interlocking bladder with wave barrier technology
- 2/3 bar stainless steel buckle
- Stainless steel D ring (harness version only)
- Life jacket light
- Buddy line
- Halkey Roberts automatic inflation system
- Adjustable fit
- Spray hood
- Wave barrier technology
- Whistle
- Lifting becket
- Hook & Loop quick burst cover

REVERE USCG SOLAS LIFE RAFT

Meeting the needs of all types of commercial craft, the Revere USCG/SOLAS life raft range consists of two models: standard throw over and davit-launched. These rafts come in a variety of sizes accommodating 4, 6, 8, 10, 12, 16, 20 and 25 persons and davit-launched in 12, 16, 20 and 25 (available by special order only).

Every raft comes packed in a weatherproof fiberglass container to keep the raft protected for longer service life. The container is secured to a steel deck-mounted stowage cradle with a hydrostatic release, allowing for both manual and automatic launching. A space saving “low-profile” fiberglass container and aluminum, cradle assembly is also available for 4,6 and 8 person.

FEATURES

- USCG Approval
- Dual tube inflation system
- Inflatable boarding ramp
- Weatherproof, double zippered door
- Exterior, automatically activating locator light
- Retro-reflective tape on canopy
- Self-erecting canopy with rain water collector
- Exterior and interior life lines
- Large water ballast bags for maximum stability
- Righting line
- Canopy & boarding ramp

SOLAS A pack includes

- Bailer
- Paddles (2)
- Topping-up pump
- Sea anchors (2)
- Parachute flares
- Smoke signals
- Hand flares
- Repair kit
- Drinking cup
- Thermal protective aids
- Seasick tablets
- Seasickness bags
- Flashlight (including extra batteries and bulb)
- Jack knife
- Signal mirror
- First aid kit
- Fishing kit
- Can opener
- Whistle
- Food
- Water

REVERE USCG COMPACT LIFE RAFT

The Revere USCG Compact Life Raft is a robust design, developed from a product that has been used by the military for more than 15 years. The life raft is capable of a reliable performance in the harshest of conditions.

The Revere USCG Compact Life Raft offers 40% space reduction over the cylindrical equivalent and is ideal for vessels with a drop height of 18m.

FEATURES

- 6, 8, 10, 12, 16 person
- USCG pack options
- Compact container
- Launch-type: throw-over
- Stainless steel/galvanised cradle available on special order
- USCG approved internal and external lighting system
- 18m drop height
- Insulated floor to retain heat
- Retro-reflective tape to increase visibility
- Dual zip closure for splash protection
- Dual tube system
- Strong inflatable boarding ramp with reinforced bladder for ease of boarding
- Large water ballast pockets for maximum stability
- External life lines
- Window ties to enable observation port

REVERE USCG COASTAL PACK LIFE RAFT

Revere USCG Coastal Pack Life Raft is renowned for their uncompromising quality and design sophistication.

Available in sizes 4,6,8 person, every raft comes packed in a either weatherproof fiberglass “low-profile” container to keep the raft protected for longer service life or water resistant soft valise. The container is secured to an aluminum deck-mounted stowage cradle with a hydrostatic release, allowing for both manual and automatic launching. Features include canopy and boarding ramp for all models.

Note: All rafts contain a Coastal Pack in lieu of a SOLAS Pack.

FEATURES

- Dual tube inflation system
- Inflatable boarding ramp
- Weatherproof, double zippered door
- Exterior, automatically activating locator light
- Retro-reflective tape on canopy
- Self-erecting canopy with rain water collector
- Exterior and interior life lines
- Large water ballast bags for maximum stability

REVERE INFLATABLE BUOYANT APPARATUS (IBA)

Revere USCG IBAs are recognized for their rugged construction and reliability during the toughest survival situations. They hold United States Coast Guard Approval and come packed in a water resistant valise or fiberglass container.

While the 4, 6, 8 and 10 person non-reversible IBA are available in a water resistant soft valise or low profile fiberglass container, the 25 and 50 person reversible IBAs are available in cylindrical containers. Our IBAs are constructed with double buoyancy chambers, inflatable boarding ramps, rescue light and an emergency equipment pack. Cradle assemblies for our low profile containers are constructed from light-weight aluminum and include a securing strap and hydrostatic release. Cradle assemblies for 25 and 50 person IBAs are constructed in powder coated steel and are available in standard flat inclined stowage. Incline cradle assemblies are available for up to three rafts and are available for special order.

FEATURES

- USCG Approved
- Double buoyancy chambers
- Automatically activating rescue light
- Emergency equipment packs
- Heavy duty boarding ladder on non-reversible models
- Interior and exterior life lines

Includes

- Bailer
- Bellows
- First aid kit (only available with 25 & 50 person)
- Hand flares (only available with 25 & 50 person)
- Signal mirror
- Repair kit
- Flashlight with spare bulbs
- Extra batteries

COASTAL COMPACT LIFE RAFT

Ideal for coastal boaters, the Coastal Compact offers those travelling alone a small, lightweight and cost effective life raft solution.

With double 200 lb. SuperRev™ weighted ballast pockets and sea anchor, the Coastal Compact enhances stability in rough sea conditions. Its light weight allows for easy deployment, and the compact size makes stowage easy in the smallest of spaces. Operation is easy. Just open the red flap on the valise and extend the painterline. Give a hard pull and the raft inflates automatically in less than 30 seconds with Coastal Compact's high-tech, self-contained CO2 inflation system.

FEATURES

- Double 200 lb. SuperRev™ ballast pockets for stability
- Compact size allows for easy stowage and deployment

Includes

- Floating knife attached to raft
- USCG-Approved water-activated locator light
- Hand pump
- Sea anchor
- Pressure relief valve
- CO2 inflation system
- 20ft. painterline
- Bailer
- Owner's manual

OCEAN SAFETY STANDARD LIFE RAFT

The Ocean Standard life raft is a practical yet affordable life raft for coastal sailing and is the latest addition in the life raft range offered by Ocean Safety, partnered with Revere.

This life raft is offered in either a container or valise. It was introduced to fulfil the requirement for a quality yet practical entry level life raft, which is ideal for coastal and short offshore recreational boating and non-coded craft.

FEATURES

- Made with quality rubber
- Insulated floor
- Highly visible orange canopy
- 4 x 30 liter water pockets
- Zip closure on entrance
- Rain water dispenser system
- Rain water collection system
- Automatic light
- ORC safety pack

Includes

- Pair of oars
- Red hand flares
- Bailer
- Sponges (2)
- Waterproof flashlight
- Whistle
- Lifesaving signal cards
- Floating knife
- Drogue
- Repair clamps
- Rescue quoit and 100ft line

COASTAL COMMANDER 3.0 LIFT RAFT

The Coastal Commander 3.0 is Revere Survival's answer to economy, durability and above all, safety – requiring service just once every three years! Constructed with two rugged oversized tubes for greater freeboard and an self-erecting arch canopy, the Coastal Commander 3.0 is fitted at each corner of the raft with lead weighted deep water ballast pockets to improve stability in rough sea conditions until search and rescue arrives. These along with many more safety features, helps ensure the Coastal Commander 3.0 will keep you safe on the water.

FEATURES

- Boarding ladder
- Righting line on floor bottom
- Self-erecting canopy with:
 - Weatherproof, double zippered door
 - Rear rainwater collector
- Adhesive bonded and taped seams, inside and out
- Vacuum-packed for protection against the environment and to minimize service costs
- Interior and exterior life lines
- Neoprene coated polyester tube and floor fabric
- Polyurethane coated polyester canopy fabric
- (4) Ballast bags w/fast deploying weights
- Sea anchor with 100ft tow line
- Floating rescue ring and 100ft line
- Floating raft knife
- Pressure relief valves
- 4ft 2" of floor space per person

Includes

- USCG/SOLAS approved red hand flares (2)
- Air pump
- Bailer
- Rescue whistle
- Repair kit
- First aid kit
- Paddles (2)
- Seasick bags
- Seasick tablets
- Water-tight flashlight
- Spare flashlight batteries
- Sponges (2)

COASTAL ELITE LIFE RAFT

The Revere Coastal Elite has a plethora of features, and offers a lightweight, easily deployable life raft option.

FEATURES

- Large, oversized tube 13" in diameter
- Spacious 4-square feet-per person interior
- Automatically inflated canopy
- Floating rescue ring and 75ft line
- Extra large weighted ballast pockets for stabilization in rough seas
- Extensive equipment pack including USCG/SOLAS pyrotechnics
- Floating knife attached to raft
- Self-deployed sea anchor
- Zippered windows
- Vacuum packed
- Retro-reflective strips
- Heavy duty boarding ladder

Includes

- USCG/SOLAS approved red hand flares (2)
- Bailer
- Signal mirror
- Paddles
- Repair kit
- Seasick tablets
- Paddles
- Repair kit
- Seasick tablets
- Water-tight flashlight
- Extra flashlight batteries
- Whistle
- Sponge
- Handpump
- Owner's manual

OFFSHORE COMMANDER 3.0 LIFE RAFT

The Offshore Commander 3.0 provides the same durable quality as the Coastal Commander, yet is suitable for offshore boating. It's the latest in affordable, offshore life rafts by Revere.

FEATURES

- Foam insulated floor for cold water
- Exterior locator light
- Retro-reflective tape
- Boarding ladder
- Righting line on floor bottom
- Self-erecting canopy with:
 - Weatherproof, double zippered door
 - Rear rainwater collector
- Adhesive bonded and taped seams, inside and out
- Rugged twin 9" diameter buoyancy tubes
- Interior and exterior life lines
- 4 ballast bags w/fast deploying weights
- Vacuum-packed for protection against the environment and to minimize service costs
- Neoprene coated polyester tube and floor fabric
- Polyurethane coated polyester canopy fabric
- Sea anchor with 100ft tow line
- Floating rescue ring and 100ft line
- Floating raft knife
- Pressure relief valves
- 36ft painterline

Includes

- USCG/SOLAS approved red hand flares (2)
- USCG approved parachute rocket (1)
- Hand pump
- Whistle
- Signal mirror
- Repair kit
- First aid kit
- Wooden paddles (2)
- Bailing bucket
- Seasick bags
- Seasick tablets
- Floating flashlight
- Spare flashlight batteries
- Sponges (2)
- Sea anchor
- Drinking water
- Instruction handbook

REVERE REGATTA LIFE RAFT

Revere's latest addition to their comprehensive life raft range, the Regatta life raft offers a light and ultra-compact ISO9650 - Part 1 raft where space and weight savings are an important requirement.

Offering stability and resistant to extreme open sea conditions, the Revere Regatta is designed to protect passengers in offshore conditions where strong winds and significant waves can be met. The self-deploying canopy and large entry opening allows for easy access on board. In addition to its compact design, the ISO9650-Part I raft is offered in 4, 6 and 8 person capacity. The raft comes in valise or container pack and have a less than 24hr survival pack inside the life raft.

FEATURES

- Highly visible green canopy
- Exterior locator light
- Interior light
- SOLAS Retro-reflective tape
- Boarding ramp and knee
- Boarding ladder
- Insulated floor
- Internal life lines
- External life lines
- Rainwater collection system
- Observation port
- Vacuum packed
- 4 ballast bags
- Independent buoyancy tubes
- <24 hour pack
- 5 sq ft. per person
- 3 years service interval

Includes

- Signalling mirror
- Whistle
- Red hand flares (3)
- Parachute flares (2)

OCEAN ISO LIFE RAFT

The award winning Ocean ISO9650 Life Raft is compact and of superior design and construction and has been developed specifically for the global leisure market. This life raft meets the requirements under current MCA Codes Of Practice, Class XII and World Sailing Offshore Special Regulations and has been third party approved to ISO9650 Type 1 Group A requirements by the Notified Body RINA.

FEATURES

- Exceptional quality - designed, tested and manufactured to ISO9650
- Made with PU nylon laminate
- Insulated floor
- SOLAS approved internal and external lighting system
- Strong boarding ladder with aluminium tubing to improve ease of access
- Knee scoop with grab handles for quick boarding
- Hermetically sealed
- Highly visible in yellow and orange
- Rain water collection
- 4/5 x 20 gallon ballast pockets for increased stability
- Retro reflective tape
- Canister or valise
- 3 year service interval

Includes

- Buoyant knife
- Bailer
- Sponges
- Paddles
- Whistles
- Flashlights
- Signal mirror
- Anti seasick pills
- Red H/H flares
- Para rocket flares
- Repair kit
- Bellows
- Throwing line – 100ft
- Drogue

Please note:

OCEAN ULTRALITE LIFE RAFT

The Ocean ISO UltraLite Life Raft utilizes carbon composite technology to achieve a significant weight reduction, compared to the traditional range of Ocean ISO life rafts. It also includes a high-tech inflation system to ensure an efficient inflation process. The raft has been 3rd party approved to ISO9650 Type I Group A requirements by the Notified Body RINA.

This life raft offers the huge benefits of a lightweight solution for yacht designers but most importantly larger life rafts are now easier to handle and deploy.

FEATURES

AERO COMPACT LIFE RAFT

Ideal for non-commercial aircraft use, the compact and lightweight Aero Compact™ offers an enhanced level of safety for over-water flights. The double 200 lb. SuperRev™ ballast pockets enhances stability in the roughest of sea conditions. Its light weight allows for easy deployment, and the compact size makes stowage easy even in the smallest of spaces.

FEATURES

- Double 200 lb. weighted SuperRev™ Ballast Pockets for stability
- Raft inflates automatically in less than 30 seconds with self-contained
- CO2 inflation system
- Single tube, single compartment construction
- Tube and floor fabric: polyurethane coated nylon fabric
- RF welded and adhesive bonded tape seams
- Valise: Durable weather and UV resistant vinyl-coated polyester with optional, detachable equipment pack/kit
- Pressure relief valve

Includes

- Hand pump
- Sea anchor
- Floating knife
- Bailer
- Water activated light

AERO ELITE LIFE RAFT

The Aero Elite is a compact, lightweight general aviation life raft making it easy to stow and deploy. It features one large oversized 13" tube with vertical bulkheads inside to divide the tube into two independent air-holding compartments, so if one compartment is punctured, the other keeps you afloat. Offering a spacious 4ft 2" per person, the Aero Elite includes a heavy-duty boarding ladder, an inflatable floor, automatically inflated canopy, stowage pockets, zippered windows, flashing strobe, four 200lb ballast pockets, an extensive survival equipment pack including USCG/SOLAS flares and much more. The Aero Elite is vacuum-packed to add greater protection against the environment and minimize servicing costs as service is required just once every three years.

FEATURES

- Large, oversized tube 13" in diameter
- Spacious 4-square feet-per person interior
- Automatically inflated canopy
- Heavy duty boarding ladder
- Weighted ballast pockets for stabilization in rough seas
- Multi-chambered tube
- Extensive equipment pack including USCG/SOLAS pyrotechnics
- Vacuum packed
- Rain catcher
- Inflatable floor
- Stowage pockets
- Zippered windows
- Flashing strobe

Includes

- USCG/SOLAS approved red hand flares (2)
- Bailer
- Signal mirror
- Paddles
- Repair kit
- Seasick tablets
- Water tight flashlight
- Extra flashlight batteries
- Whistle
- Sponge
- Floating knife
- Handpump
- Owner's manual

HAMMAR HYDROSTATIC RELEASE

The Hammar H20 is a hydrostatic release unit designed to fit life rafts of all shapes and sizes. It is made of glass fiber reinforced nylon, which prevents it from corroding. The Hammar H20 needs no annual service, maintenance or spare parts. You simply install a new one every two years and dispose of the old one. With the environment in mind, the old unit is 97% recyclable.

FEATURES

- Designed for life rafts from 6 up to 150 persons
- Release depth: 5-13ft
- Breaking strength of white rope sling: min 15kN
- Breaking strength of red weak link: 2.2 +/- 0.4kN
- Dispose after 2 years
- Weight 0.4lbs

JON BUOY® GLO LITE

JON BUOY GLO LITE DANBUOY

The inflatable Jon Buoy Danbuoy is stylish, compact and weighs only 8.5lbs. It can be mounted on the pushpit and is easily deployed in an emergency. In the event of a man overboard, simply unclip the unit from its mounting bracket and throw; the Danbuoy then automatically inflates. It replaces the traditional Danbuoy and is also fitted with a light and whistle.

FEATURES

- Compact
- Quick and easy to use
- Highly visible
- Easily replaced
- Lightweight
- Automatic inflation
- 33g cylinder
- Automatic light
- Whistle
- White or carbon style hard cases

JON BUOY GLO LITE HORSESHOE

The Jon Buoy inflatable horseshoe is a direct replacement for the traditional horseshoe lifebuoys. These compact units come fitted with an oral tube retro-reflective tape, whistle and an automatic inflation system as standard.

FEATURES

- Automatic inflation
- Retro-reflective tape
- Quick and easy to deploy
- Highly visible
- Light weight
- Clear printed instructions
- Re-packable
- Available as soft or hard case
- Hard casing in white or carbon style

JON BUOY GLO LITE RECOVERY MODULE

The Jon Buoy Recovery Module, is accepted as a direct replacement for the traditional Danbuoy horseshoe, drogue, light and whistle, specified within the World Sailing Offshore Special Regulations.

FEATURES

- Automatic inflation
- Automatic light
- Lifting ring
- Lifting safe working load 430lbs
- Retro-reflective binding
- Large ballast pocket
- 16ft weighted throwing line
- Repackable
- Compact and lightweight
- Slimline container
- AIS attachment point
- Available in bulkhead or rail mount options

JON BUOY®
GLO LITE

RED PARACHUTE SIGNAL ROCKET

USCG Approved Red Parachute Rocket, for long range, day and night distress signalling.

FEATURES

- Designed to withstand exceptional environmental exposure
- Performs reliably even after immersion in water
- Features improved grip for easy handling and conforms to SOLAS 74/88 as amended
- Designed to withstand environmental exposure
- Compact design for easy life raft stowage

Part numbers	Description
45-9163100	Red Parachute Signal Rocket

RED HANDHELD

For use day or night, short-range distress signal to pinpoint position. Features a telescopic handle allows easy extension for safe operation and saves space when stowed in life rafts.

FEATURES

- Unique, compact, telescopic handle allow easy extension for safe operation
- Designed to withstand exceptional environmental exposure
- Performs reliably even after submersion in water
- Easily extended for a safe handling and operation
- Designed for stowage in life raft

Part numbers	Description
415-9162800	Red Handheld

SMOKE SIGNAL - ORANGE

Compact, daylight distress signal designed to be easy and safe to use and provided effective positioning marking.

FEATURES

- Compact, flat top, day-time orange smoke distress signal
- Can be used for indication of wind direction during a rescue
- Safe to use on petrol or oil covered water
- Designed for stowage in life raft

Part numbers	Description
45-9192000	Smoke Signal - Orange

LINE THROWER 250

USCG approved line-thrower, which propels up to 820ft of line in a single shot.

FEATURES

- Self-Contained single shot, line-throwing appliance that is fully compliant to the latest international SOLAS/MED and USCG legislation
- A solid propellant rocket is used which guarantees a highly accurate flightpath even in strong sidewinders

Part numbers	Description
45-9163100	Red Parachute Signal Rocket

PERSONAL SIGNAL LAUNCHER

The lightweight, Comet Personal Signal Launcher pack which contains nine red aerial flare cartridges and a projector firing mechanism, all enclosed in a tough, water-resistant case.

FEATURES

- Lightweight, compact pack
- Contains an injector firing mechanism in a tough, water resistant case
- The projector is fitted with a stainless steel spring and striker pin
- Nine red cartridges per mini-flare
- Each cartridge projects its payload to a height of over 130ft
- Unique slot fitting with a simple slide-on action for loading the cartridges

Part numbers	Description
45-9194600	Personal Signal Launcher

15 MINUTE BUOY SMOKE SIGNAL

15-minute orange smoke man overboard day time lifebuoy marker, It can be automatically deployed by releasing the attached lifebuoy, or manually activated. Identical to Light & Smoke Signal - but without the lighting system.

COMMERCIAL

Part numbers	Description
45-9181700	Red Parachute Signal Rocket

DAY AND NIGHT SIGNAL

Compact, handheld distress signal consisting of a red flare at one end and an orange smoke in the other. Housed in a rugged, corrosion-resistant case.

FEATURES

- Compact, hand-held distress signal consisting of a red flare/ 15,000 candela at one end and dense orange smoke at the other
- Housed in a rugged, corrosion and water-resistant case
- End caps are color coded and finned to identify flare or a smoke

AVIATION

MAN OVERBOARD LIGHT & SMOKE MARKER

The signal is used to mark the position of a man overboard by day or night, by omitting dense orange smoke and LED lights. It can be automatically deployed by releasing the attached lifebuoy, or manually activated.

FEATURES

- 15 minute signalling via smoke and light
- Tested to survive a 200ft drop into the water (SOLAS 100ft)
- Universal Stainless Steel mounting bracket
- Safe to use on petrol or oil covered water
- Use with lifebuoy weighing 9lbs
- Attach to lifebuoy with 9.5mm diameter, 13ft long line

ACR RESQFLARE

A high intensity LED Electronic Distress Flare. Sold with the included daytime distress flag, the ResQFlare and accompanying flag are certified to meet the applicable U.S. Coast Guard requirements allowing them to be carried in lieu of traditional pyrotechnic flares (U.S. only) on vessels subject to 33 CFR 175.130 (primarily recreational boats).

FEATURES

- ResQFlare and included Distress Flag, when carried together, qualify as a replacement for the carriage of USCG pyrotechnic flares (the U.S.A. only)
- Bright light in all directions (360° visibility)
- Lightweight and compact in size
- Automatically rights itself and floats when in the water (no buoyancy/flotation ring necessary)
- Visible over 6 miles
- User-Replaceable C-Cell Alkaline Batteries (Not Included)
- High intensity LED strobe maintains a minimum peak equivalent fixed intensity of 75 cd for 20 hours or greater (room temperature)
- The operational life of 20 hours is over 3 times longer than the USCG requirement for maintaining peak equivalent fixed intensity of 75 cd
- Durable design: Fire-resistant, Oil-resistant, Fungus-resistant, & Corrosion resistant
- Waterproof (IP67)
- Certified under USCG 161.013 as a Nighttime Visual Distress Signal
- Includes Distress Flag (Certified under USCG 160.072 as Daytime Visual Distress Signal)

RECREATIONAL

RESCUEME EDF1

The world's most compact electronic distress flare, offers users a safe and long-lasting solution to visual signalling in an emergency.

FEATURES

- Advanced LED technology – Safe operation
- Compact, rugged design
- Superb 360 degree visibility in the Azimuth
- Excellent visibility for aircraft and helicopter SAR
- Up to 6 hours battery use
- Constant brightness maintained throughout the life of the battery
- Four modes of operation plus SOS signalling
- Easy change replaceable battery
- Range up to 7 miles
- Waterproof to 30ft
- Battery test function

LARGE POLYBOTTLE

Rugged bottle ideal for storing distress signals 12 Liter water resistant storage bottle for flares.

FEATURES

- Ideal for storing distress signals
- Can easily be picked up during an emergency

Part numbers	Description
45-9128000	Large Polybottle

COMMERCIAL

LIFEBOAT DISTRESS KIT

Lifeboat Distress Kit containing: 4 parachute signal rockets, 6 red handflares, 2 smoke signals within a waterproof polybottle.

FEATURES

- 4 parachute signal rockets
- 6 red handflares
- 2 smoke signals - orange

Part numbers	Description
45-PYRO-SLDK	Lifeboat Distress Kit

COMMERCIAL

SHIP'S BRIDGE DISTRESS KIT

Ship's Bridge Distress kit, containing 12 parachute red rockets within a waterproof polybottle.

FEATURES

- 12 red parachute signal rockets

Part numbers	Description
45-PYRO-SBDK	Ship's Bridge Distress Kit

COMMERCIAL

OVER 50 MILE DISTRESS KIT

Over 50 Mile Distress Kit containing: 3 parachute signal rockets, 6 red handflares, 3 smoke signals within a waterproof polybottle.

FEATURES

- 3 red parachute signal rockets
- 6 red handflares
- 3 smoke signals - orange

Part numbers	Description
45-50MILE	Over 50 Mile Distress Kit

COMMERCIAL

OFFSHORE DISTRESS KIT

Offshore Distress Kit, containing; 4 parachute signal rockets, 4 red handflares, 2 smoke signals within a waterproof polybottle.

FEATURES

- 4 red parachute signal rockets
- 4 red handflares
- 2 smoke signals - orange

Part numbers	Description
45-PYRO-ODK	Offshore Distress Kit

COMMERCIAL

RESCUEME MOB1

The world's smallest personal locating AIS Man OverBoard device. As the world's smallest AIS MOB device, the rescueME MOB1 is your best chance for rapid rescue. Compatible with even the most compact inflatable life jackets, it will activate automatically on inflation, sending the first alert within 15 seconds.

FEATURES

- Integrated DSC transmitter (digital selective calling)
- 30% (typ) smaller than competitors
- Automatic activation
- Simple life jacket integration
- 7 year battery life
- 24+ hours operational life
- 5 year warranty
- Fast accurate positioning

Part numbers	Description
45-740S-01551	Rescueme MOB1

RESCUEME PLB1

30% smaller than other PLBs on the market. Wherever your adventure, on sea or land, the rescueME PLB1 provides the reassurance that global emergency services can be alerted by the press of a button.

FEATURES

- Retractable Antenna
- 7 year battery life
- 7 year warranty
- 24+ hour operational life
- 66 channel GPS receive
- Unique mounting clip
- Operates on the global Cospas Sarsat rescue system

Part numbers	Description
45-730S-0126	Rescueme PLB1

OCEAN SIGNAL EPIRB1

The rescueME EPIRB1 provides peace of mind with an impressive 10 year battery life. Its small size allows it to be easily retained within its quick release bracket or placed in an emergency grab-bag or life raft.

FEATURES

- 10 year battery life
- Retractable antenna
- 66 channel GPS
- 406MHz
- 121.5MHz

Part numbers	Description
0045-7025-01540	Ocean Signal EPIRB1

OCEAN SIGNAL EPIRB1 PRO

The world's most compact emergency position indicating radio beacon. It is a practical option to meet the needs for all commercial, fishing, and leisure vessels.

FEATURES

- 66 channel GPS
- Float free bracket, automatic release housing with hydrostatic release unit
- 10 year battery life
- Intuitive operating controls protected from accidental activation
- Class 2 EPIRB (-4 to +130 degrees Fahrenheit) for general use
- 406MHz
- 121.5MHz

Part numbers	Description
45-702S-03401	Ocean Signal EPIRB1 PRO
